

# CONVECTION OVEN SOUTHBEND STYLE

## INSTRUCTIONS

---

### STEP 1

- Connect a hose to the propane tank. Tighten counterclockwise and open the valve.

### STEP 2

- Make sure the oven is plugged into a grounded outlet.

### STEP 3

- Turn the power switch to ON.

### STEP 4

- Turn the fan mode switch to COOK.

### STEP 5

- Turn the COOK TEMPERATURE knob to the desired temperature.

### STEP 6

- Listen for the sound of a fan blowing and look at the HEAT ON light.

### STEP 7

- The light will turn on to indicate the unit is heating up.

### STEP 8

- If the light does not turn on, start back at step one.

### STEP 9

- When the unit reaches the set temperature, the HEAT ON light will turn off.
